MISSION STATEMENT

Our mission is to save lives and protect public health from the toxic chemical and pesticide poisons which do more harm than good. We strongly believe that ORGANIX, quality, affordability and customer service excellence should come as a standard.

MEET THE TEAM

Organix Solutionz™ is driven by a group of Professionals and Industry specialists. We provide result proven products and services.
How can we help YOU?

ORGANIC BRANDING ON ALL OUR SERVICES

In this day and age with a more Health and Environmental conscious population. Organic Branding is good for business. It validates your environmental and health claims. It also sets you apart from competitors and can open doors to lucrative contracts and opportunities. Our experienced staff and exclusive marketing team is always available to help you capitalize on these benefits and to maximize the value of your BRANDING to reach new customers.

TRUSTED & PREFERRED BY

PRODUCTS & SERVICES OUR

We believe in brining our clients nothing short of exceptional products & customer service.

ORGANIX PEST CONTROL

*Guaranteed Pest Eradication that keeps you
and the environment safe.*

01 ORGANIC PEST CONTROL

Since 2003 Organix Pest Control has been providing homes and Industrial/Commercial work spaces with Organic non-invasive PEST CONTROL services that are GUARANTEED to ERADICATE any infestation. We are dedicated to protecting and enhancing the health of businesses, families, pets and our fragile environment. Our products are a NATURAL biodegradable food source for pests making them IRRESISTIBLE.

OUR PRODUCTS & SERVICES AVOID KILLING NON-TARGET PEST SPECIES THAT ARE ESSENTIAL FOR LIFE.

Our Organic Pest Control Services are BRANDING compliant for any business or entity that wishes to identify itself as environmentally friendly, contributing to solving the environmental crisis posed by toxic pesticide poisons. Eradicating pests while caring for the environment makes common sense and allows your clientele to appreciate your earth saving efforts, giving you a competitive edge.

Organix Pest Control is a trusted brand and is the Number 1 choice for businesses and homes who care about Health, the Environment and long term PEST ERADICATION. We provide effective control treatments for all kinds of pests in all kinds of industries. No disruption to business operations and NO HEALTH OR ENVIRONMENTAL HAZARDS.

Pesticide poisonings cause short and long term health problems especially in children and the environment. This is caused by contact with pesticides from surroundings after weeks, months and even years of service.

PESTICIDES ARE MORE DANGEROUS THAN THE PESTS THEY ARE TRYING TO KILL.

Keeping you and public spaces SAFE.

02 COVID-19 DISINFECTION

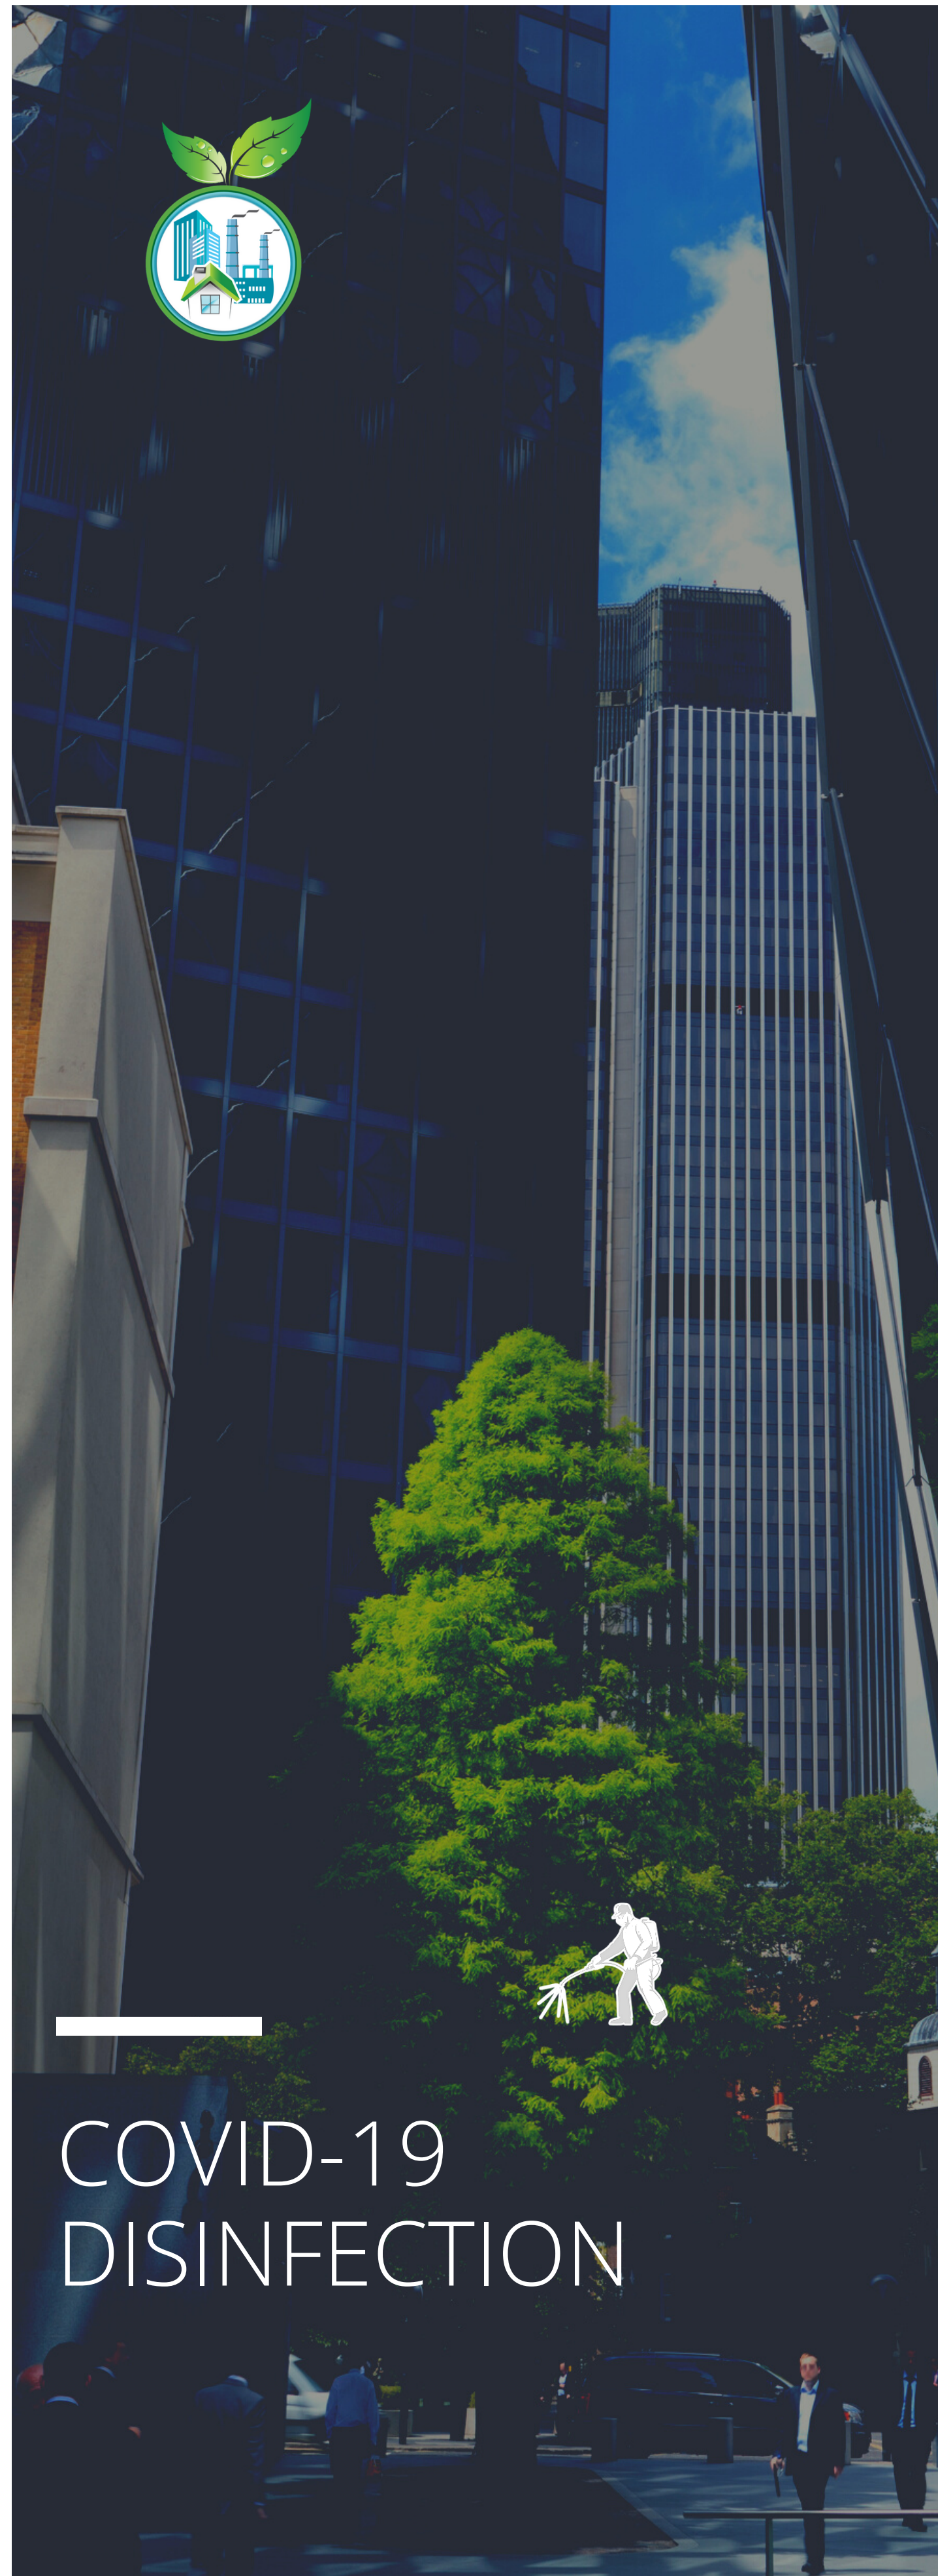

COVID-19 has precipitated a worrying cleaning trend that's getting little airtime – excessive exposure to hazardous cleaning and disinfecting chemicals, that itself can endanger health. To reassure people about the safety of indoor spaces during the pandemic, some workplaces are turning to unnecessary or even counterproductive cleaning and disinfection methods – a practice called “hygiene theater.”

We fully understand the risks that the global pandemic presents to the health of homes & businesses. We provide homes and work spaces with SAFE NON TOXIC NON INVASIVE products and services that are approved by W.H.O. and The Australian Government Department of Health.

OUR PRODUCTS HAVE A 99.99% KILL RATE AND WORK WITHIN SECONDS OF APPLICATION.

We are a company known for our RESULT BASED SAFE SERVICES. We provide effective treatments for all kinds of facilities. NO DISRUPTION to business operations and no health hazards.

BUSINESS, FAMILY, FOOD & PET FRIENDLY

05 ORGANIC LANDSCAPING SERVICES

Organix Solutionz provides you with the lawn your looking for and the peace of mind that comes from knowing its maintained NATURALLY, CARCENIGEN FREE, pet friendly, kid friendly and with a 0 CARBON FOOT PRINT.

You want a beautiful lawn but NOT all the CHEMICALS and EMISSIONS that most services are associated with. Organic landscaping cost as much as regular landscaping and even more value for your money CONSIDERING ITS BENIFITS TO HEALTH of people and the environment. Traditional landscaping methods include toxic chemicals that end up polluting nearby water supplies and the overall health of the environment and people. Theses chemicals have been scientifically proven to stay in the soil for years after service.

Our services have long lasting value and benefits that far outweigh traditional landscaping.

WE ARE PROUD TO PROVIDE YOU WITH A SERVICE THAT IS ORGANIC BRANDING APPROVED AND A BALANCE THAT BENEFITS AND ALLOWS MAN AND THE ENVIRONMENT TO THRIVE IN.

ORGANIC LANDSCAPING

We believe in bringing our clients nothing short of exceptional customer services & quality products that perform while saving lives and our fragile ecosystems!.
